Centre For Latin American Studies

The Centre was established in 2009 and has been running successfully till date. High profile seminars are held every year, with dignitaries and artists of Latin American countries delivering power-point d or improptu lectures and programmes of dances. In almost every seminar one particular country of that vast continent is exclusively explored, and often the theme of a seminar in pan-Latin American in exploring the arts. The proceedings of the seminar are printed in exclusive journals and these are presented to dignitaries of that particular country. The last two journals are joined in one volume in press, slated to be printed by December'21. Aided by the University, our centre has been functioning from a time before the concept of the culture of Latin America became popular here. With many encouraging memories driving us on, we hope to continue on our challenging yet satisfying path. This is our passion

Soma Banerjee

Director

Centre for Latin American Studies, RBU
